Top 10 car makes

by revenue share (%)

INSIGHT

Ford leads at 26.08%

— more than 5× Lexus (4.64%), the lowest performer.

Mid-range Toyota (9.36%) and BMW (8.55%) show balanced performance but remain far behind the leader.

Ford alone contributes more revenue than the two lowest brands combined — a strong concentration in one dominant make.

F-150

Hero product · 17.00% of revenue

Top 10 models by revenue

INSIGHT

The F-150 delivers 2.5× the revenue of the Silverado 1500 (6.69%).

Mid-tier Escape (10.35%) and Fusion (9.97%) are consistent but far behind. *On its own, the F-150 out-earns several mid-range models combined — the main revenue driver.*

Selling price vs mileage, by year

Inverse trend: as cars get newer, mileage drops and price climbs — a clear depreciation curve.

Top 10 regions by sales performance

01	Florida	20.42%
02	California	18.01%
03	Texas	11.30%

INSIGHT

Florida, California and Texas drive ~50% of total units sold. Combined with North California (5.38%), California's true share is 23.39% — the real sales powerhouse.

Sales trend by vehicle body type

46%

Sedans dominate — nearly half the market

28%

SUVs — strong pull toward larger vehicles

9x

Sedan sales in 2015 vs 2014 (41.99% vs 4.43%)

Strategies to boost profitability & operational efficiency

01 Focus on demand

Prioritize Sedans (46%) and SUVs (28%); leverage hero products like the F-150 (17%).

02 Price & promote

Use the mileage-price relationship to justify premiums; tailor incentives by state — FL, CA, TX deliver ~50% of sales.

03 Streamline ops

Concentrate resources in top-performing regions, standardize workflows, forecast demand to cut excess inventory.

04 Targeted marketing

Highlight "Top 10" performers, segment promotions by geography, emphasize value through low mileage and strong resale.

A few flagship models and top states drive most revenue — align inventory, pricing and operations around them.
